

## **'Guess what I am Game'**

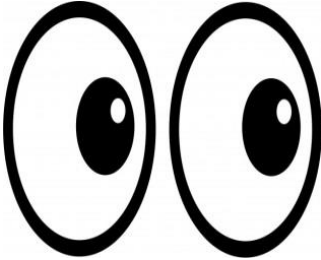

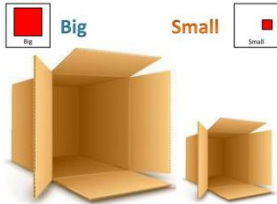

### **Description of game:**

Here is a fun activity your child and all the family will enjoy playing! In this fun game, you or your child must guess a picture you are describing! I have included some pictures and description cards (see below). If you do not have access to a printer, you can take a picture on your phone of any item you are describing and you can use the 'description' cards to help you describe it. You could also play the game without using the pictures and just describe things around the house or outside. The 'Visual Prompt for Describing Items' (see below) will help you. This game will help develop your child's vocabulary, word retrieval skills and descriptive language.

### **Instructions for use:**

1. Make sure the person 'guessing' the item cannot see that picture.
2. If your child is 'guessing', read out the description cards located next to the picture.
3. If your child cannot guess the item based on the information given on the description card, describe it in more detail using the 'Visual Prompt for Describing Items'.
4. If your child still has difficulty guessing the item, you could give him/her a choice of answers, e.g. "do you think I am talking about an apple or banana?"
5. After you have demonstrated to your child how to play the game, encourage your child (if s/he is able) to give the instructions.
6. Encourage your child to use the 'Visual Prompt for Describing Items' to help them describe the item.
